For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: OPTICAL CONTROLS

(57) Abstract: An optical control in the form of a rotary optical encoder includes a Gray code generating disk (9), a light source (3), a series of three light detectors (4), and an apertured cover (5) arranged over the light detectors (4). The control further includes a reflector (12) which redirects the light from the light source (3) to the detectors (4). The reflector (12) comprises a first parabolic reflective surface (14) which reflects the incident light from the light source (3) into a number of parabolic secondary reflective surfaces (15), each of which reflects and concentrates the light through the apertured cover (5) towards a particular light detector (4).

INTERNATIONAL SEARCH REPORT

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
2. Claims Nos.: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)
This international Searching Authority found multiple inventions in this international application, as follows:
see additional sheet
1. X As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. X As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.: 1.claims:1-25,50-68: Constructional details of an optical controller
4. No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the Invention first mentioned in the claims; it is covered by claims Nos.: 2.claims:26-49: Improvements to codetracks to cope with tolerances in the manufacturing of an optical controller
Remark on Protest The additional search fees were accompanied by the applicant's protest. X No protest accompanied the payment of additional search fees.

INTERNATIONAL SEARCH REPORT

International Application No. PCT/GB 03/01524

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. Claims: 1-25,50-68

Constructional details of an optical controller

2. Claims: 26-49

Improvements to codetracks to cope with tolerances in the manufacturing of an optical controller $% \left\{ 1,2,\ldots,n\right\} =0$
